| Continuous burning appliance               | —                                               |
| Type test standard                         | DIN EN 13240                                    |
| Year of testing                            | 2015                                            |
| Test laboratory                            | TÜV Süd Kermi Kft.                              |
| Number of test laboratory                  | 14                                              |
| Number of test report                      | R-532325/C-633113-1                             |
|                                            |                                                 |

Flue gas values

|                             | Wood | Coal |
|-----------------------------|------|------|
| Flue gas mass flow [g/s]    | 7.4  | 7.6  |
| Flue gas mass flow [g/s]    | 238  | 245  |
| Necessary flue draught [Pa] | 12   | 12   |

| Further important characteristics of the appliance          |   |
|-------------------------------------------------------------|---|
| Suitability for installation to a shared flue <sup>1)</sup> | × |
| Connectivity to the central heating system                  | — |
| General technical approval for room sealed operation        | - |

<sup>1)</sup> For unsealed operation it is possible to install the appliances to a shared flue system (please see installation manual).

On behalf of the manufacturer, the HKI Industrieverband e.V. hereby confirms compliance with the respective requirements\* in accordance with 1.BImSchV. The type test report of the fireplace has been submitted to the HKI Industrieverband e.V.

\* A green check mark with a "1" indicates that the requirements of the 1st BImSchV are fulfilled, a green check mark with a "2" indicates that the 2nd level of the 1st BImSchV is fulfilled. A yellow check mark shows that the transitional regulation of the 1st BImSchV is fulfilled and a red line means that the 1st BImSchV is not fulfilled.
